

**SURGICAL DRESSINGS**

**TRANSPARENT FILM DRESSING - WATERPROOF**

**PRODUCT NAME**

**SurginLeep**

**DESCRIPTION**

Sterile waterproof urethane dressing made from transparent elastic, pliable, polyurethane film.

**FEATURES**

- Transparent - makes it easy to inspect wound sites.
- Protects wound from penetration of bacteria and reduces risk of cross infection.
- Waterproof - allows bathing etc.
- Allows skin to breath, prevents maceration.
- Adequate strength preventing breakage of film when removed.

**USES**

- Easy to secure IV catheters.
- Used to dress wounds and may be used with **Sere-pad** non-stick dressing to create film dressing with an absorbent pad.
- Acts as a second skin affording extra strength and protection for the elderly and fragile patients.
