

# Sere-med STETHOSCOPE

# SX

An Acoustic Masterpiece from LUXAMED,<sup>®</sup> Germany.

## STETHOSCOPE SX

Adults / Children  
Black edition

The double stainless steel chest piece of the SX is produced from a high quality, CNC- milled manufacturing process that ensures excellent auscultation of high and low frequencies ranging from 20 - 2000 HZ.

STETHOSCOPE SX offers excellent sound characteristics due to the perfectly tuned mass proportion of the reversible chest piece to the diaphragm.

## THE DIAPHRAGM

The retaining ring of the Diaphragm and Bell is made of light metal with a SOFTFEEL coating for more comfort on the skin.

## THE BELL

The standard Bell configuration with diaphragm, is ideal for use on smaller parts of the body.

The Bell function is enhanced by simply removing the small diaphragm to listen to lower frequencies, in the stomach, abnormal sounds of digestive organs, blood flowing through vessels or during pregnancy.

The Chest piece and Bell has a very fine thread which reduces dirt collection and ensures minimal cleaning. The design facilitates easy removal, replacement and re-attachment following the use of the Bell in the low frequency application.

## THE EAR TIPS

Unique SOFTBUD silicone ear tips in a sound insulating design, guarantee optimum sound transmission and perfect auscultation without any background noise.

Noise reduction feature is also provided by the SX Binaural, which can be moved noiselessly.

The inside plastic body of the ear tips prevent the inadvertant closing of the ear tips during head movements.

The removeable SOFTBUD ear tips, small, medium and large, supplied with the SX are easy to clean, remove and replace. Their design ensures they adapt optimally to the auditory canal affording a comfortable fit in the ear.

## SPECIFICATIONS

LATEX and NICKEL FREE Binaural, Chest piece and ear tips.

Weight (Chest piece) : 95g  
Diameter (Large diaphragm) : 3.9 cm  
Diameter (Small diaphragm) : 3.2 cm  
Length (Binaural incl ear tips) : 72 cm  
Length (total incl Chest piece) : 77 cm
